

Maaz Surti

iOS Developer

Ahmedabad, India • maazsurti619@gmail.com • +91 9586565254 • [Portfolio](#) • [LinkedIn](#)

Passionate iOS Developer with 5+ years of hands-on experience building and leading high-quality mobile applications. Currently heading the mobile development team, I manage both iOS and Android engineers to deliver scalable, user-focused, and beautifully crafted products. I thrive on turning ideas into polished apps, taking them from concept to App Store with strong skills in Swift, UIKit, SwiftUI, Flutter, and CI/CD practices. With over 8 successful launches on the App Store and TestFlight, I am driven by a genuine passion for creating seamless user experiences and constantly pushing the limits of mobile development.

Relevant Experience

iOS Developer

Raw Code Developers - Kuwait City, Kuwait (Remote)

Aug 2022 – Present

- Lead the mobile app development team (iOS and Android), coordinating cross-platform development and mentoring team members.
- Spearheaded CI/CD pipelines using Fastlane and GitHub Actions, reducing release cycle time from weeks to days.
- Implemented push notifications and remote configuration, boosting user engagement and personalization.
- Developed and maintained apps in Swift and Objective-C, delivering robust client solutions.
- Partnered with designers and stakeholders to define technical feasibility, ensuring timely and cost-effective delivery.

Junior iOS Developer

Technostacks Infotech Pvt. Ltd. - Ahmedabad, India

Dec 2020 - May 2022

- Designed and developed intuitive UI with Storyboard and Interface Builder, enhancing user satisfaction.
- Built reusable custom UI components, accelerating development across multiple projects.
- Configured CI/CD pipelines to automate builds, testing, and deployments, streamlining workflows.
- Integrated RESTful APIs for dynamic, data-driven features

Projects

SecondHand Souq | SwiftUI, Fastlane, REST APIs | [App Store Link](#)

- Led the **end-to-end iOS development** of a second-hand marketplace app, translating business requirements into a scalable and user-friendly mobile product.
- Collaborated closely with stakeholders to **define product flows, user journeys, and core marketplace features**, ensuring alignment with real user needs.
- Architected and implemented a **clean, maintainable app structure**, balancing rapid delivery with long-term scalability.
- Designed intuitive **listing, browsing, and discovery experiences** to reduce friction for buyers and sellers.
- Drove **localization strategy (English & Arabic)** to ensure cultural and UX suitability for the target Middle Eastern market.
- Took ownership of **performance, stability, and platform compatibility**, supporting iPhone, macOS, and visionOS from a single codebase where applicable.

- Ensured compliance with **Apple privacy standards**, prioritizing user trust with minimal data collection.
- Owned the **App Store release lifecycle**, from builds and testing to submission and post-launch iterations.

LorryNow | SwiftUI, Fastlane, REST APIs | [App Store Link](#)

- Led the development of **LorryNow**, an on-demand logistics and transport booking app, turning complex operational requirements into a simple consumer experience.
- Worked closely with product and business stakeholders to **design booking flows, pricing visibility, and service options** aligned with real-world logistics use cases.
- Architected core app features including **instant lorry booking, vehicle selection, and helper add-ons**, balancing flexibility with UX clarity.
- Implemented **real-time tracking and driver coordination features** to improve delivery transparency and user trust.
- Focused on **performance, reliability, and error handling** in time-sensitive booking scenarios.
- Led **localization efforts (English & Arabic)** to support regional expansion and adoption.
- Owned the **release lifecycle and iterative improvements**, incorporating feedback post-launch to refine usability and stability.

Fit Habibi | SwiftUI, Swift, Fastlane, REST APIs | [TestFlight Link](#)

- Led the **end-to-end development** of a fitness platform connecting coaches, gyms, and trainees, translating business vision into a scalable mobile product.
- Partnered with founders and stakeholders to **define core product workflows** including training programs, client management, and progress tracking.
- Architected flexible systems for **workout creation, exercise libraries, and client progress analytics**, enabling coaches to personalize training at scale.
- Designed and implemented **coach-facing dashboards** to manage clients, subscriptions, and schedules with minimal operational friction.
- Oversaw **data modeling and state management** to support long-term user engagement metrics such as performance history and visual progress.
- Drove **localization (English & Arabic)** to ensure accessibility and usability across diverse regional audiences.
- Took ownership of **app quality, performance, and App Store delivery**, ensuring a stable experience on modern iOS versions.

Education

LDRP-ITR, Gandhinagar, Gujarat, India

2016 - 2020

Bachelor of Science in Computer Science

Skills

Languages: Swift, Dart, Javascript, HTML/CSS

Frameworks: UIKit, SwiftUI, Flutter, SvelteKit

Developer Tools: Git, GitHub, Fastlane, Xcode, Visual Studio Code
